Smart Music Pillow

The point of Smart Music Pillow

[Super Comfort] Made of high-density, slow-rebound memory foam with superior comfort because it disperses your weight more evenly than traditional pillows. Regardless of your sitting position, the pillow retains its shape and provides the perfect amount of bounce so that you don't experience neck discomfort while sitting and resting!

[Ergonomic Contour Design] The unique contour design provides a suitable ergonomic curvature for the neck, providing perfect support for the neck, head, and face. So you can enjoy unparalleled comfort and support.

[Sound/Music Pillow] The most unique feature of Zeround is the built-in directional somatosensory speaker, which provides you with good stereo effect. After connecting via Bluetooth on your mobile phone, you can play the music on your own mobile phone after success. When you hear your favorite music during lunch breaks or travel, there are no uncomfortable earplugs that interfere with your ears.

[Removable Pillowcase] The pillowcase is detachable and features a concealed zipper for easy disassembly and cleaning, keeping the portable pillow clean and comfortable to wear.

Perfect hardness,
when you use it for a long time,
your neck will not be stiff.

High-elastic memory cotton, balanced dispersion of neck pressure,
reducing cervical compression

Covering the Cervical Spine
